APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times. The total combined amount of water granted under this permit and Permit 14059, Certificate 5156, is limited to what the well covered under the two permits is capable of producing. If a certificate of appropriation is issued under this permit, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two certificates is capable of producing.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 4.0 cubic feet per second, of 5.0 acre-feet per acre of land irrigated from any and/or all sources. The total combined amount of water granted under this permit and Permit 14059, Cert. 5156, is limited to what the well covered under the two permits is capable of producing. If a certificate of appropriation is issued under this permit, the total combined amount of appropriation granted in said certificate shall not exceed what the well covered under the two certificates is capable of producing. Actual construction work shall begin on or before June 12, 1973.

Proof of commencement of work shall be filed before July 12, 1973

Work must be prosecuted with reasonable diligence and be completed on or before June 12, 1974

Proof of completion of work shall be filed before July 12, 1974

Application of water to beneficial use shall be made on or before June 12, 1976

Proof of the application of water to beneficial use shall be filed on or before July 12, 1976

Map in support of proof of beneficial use shall be filed on or before July 12, 1976

Commencement of work filed MAY 31 1973
Completion of work filed JUN 17 1975
Proof of beneficial use filed.....
